After significant consideration, I regret to inform you that I will not testify against Thomas Chantry a third time.

I stand by all of my previous statements and testimony and reaffirm that he is guilty of everything of which I have accused him. I sincerely hope that Chantry is one day brought to justice and that no other child has to suffer at his hand the way that I have suffered. However, my personal situation has now changed, and I do not wish to revisit this time in my life or to relive these experiences again.

Regards,

[M.J.]
